

(UPDATE: 12/01/21)

Aloha and welcome!

As you consider visiting us, we want to assure you that our primary concern is the well-being of our guests, associates and the communities we serve. Health and safety protocols have been enhanced in response to the current situation, and we have changed some business practices. These include:

- Entrance to store through front of building **ONLY**
- Separate entrance to snack bar area.
- All food must be consumed on the outdoor lanai; **no food consumption in the store.**
- Pineapple Cutting and Chocolate demonstrations remain temporarily suspended
- Required wearing of face coverings at all times while **INSIDE** the store.
- Access to hand sanitizer and disinfectant throughout the property
- Frequent deep cleaning and disinfection of all frequently touched hard surfaces, as well as amusement and entertainment areas.

Dole Plantation is committed to following the guidance and recommendations of local, state and federal agencies to deploy the best practices under these evolving circumstances.

Thank you for your understanding. We look forward to seeing you very soon!
